Stark Golden Delicious
Actual Size Photograph

6-Year Stark Golden Delicious Apple Trees bearing bumper crop at Rising Springs. (Story below). Many Bore 4 Bushels at 4 Years Old and Big-Money Crops for 10 Straight Years.

OUR 10th BIG CROP STARK GOLDEN DELICIOUS on TREES ONLY 14 YEARS OLD

(Photo Above) "We have just finished picking our tenth big-money crop of Stark Golden Delicious Apples from trees only 14 years old. We just sold the last bushel of apples and are leaving for a fishing trip to celebrate the biggest, most beautiful and most profitable of all our 10 consecutive big money crops . . . from our 25 acres of Stark Golden Delicious Trees.

PAGE TWO

"Bears Younger Than Any Other. In our 100 acre orchard we have all the most popular, most profitable commercial apple varieties. We picked crops quicker from our 25 acres of Stark Golden Delicious Trees than from any others. In fact, Stark Golden Delicious produced a profitable commercial crop when the trees were only 4 years old—many trees bearing as much as 4 bushels per tree. And, they haven't missed a crop since.

"Make Us More Money. Our whole orchard is profitable. We grow only the varieties which are popular on the market. Yet, Stark Golden Delicious makes us more money, year after year, than any other variety, because it comes into bearing sooner, bears heavier crops every year of such beautiful, deliciously flavored apples that they bring to our orchards buyers who eagerly buy them at top prices."

RISING SPRING ORCHARDS, Pike Co., Illinois.

\$52.00 A TREE CROP ON MY 7 Year Old STARK GOLDEN DELICIOUS

"It Bore 20 Apples at 2 Years Old and Big Crops Every Year Since"—Says Carl Kirn—Photo Below

Once you have feasted your eyes on the rich golden beauty of Stark Golden Delicious—sunk your teeth into its crisp, firm, delicious, juicy, spicy-flavored flesh—and once you have enjoyed its sparkling, tangful flavor, you, too, will join the vast throng who acclaim this apple "The Finest Flavored in All the World."

Although your Genuine Stark Golden Delicious Apple Trees cost you only a few cents more than ordinary trees, we spent \$5,000 for the original tree that you might grow these amazing Stark Golden Delicious Apples—for the enjoyment and health of your family, and for profit.

Growers in 38 states reported some apples on 2-year Stark Golden Delicious Trees. And not only did this remarkable variety begin to bear unbelievably young, but bore such big crops as had never before been known in a commercial variety.

ECKERT PICKED 54,051 BUSHELS FROM 2200 TREES ONLY 11 YEARS OLD.

"I make 4 or 5 times as much money from Stark Golden Delicious," declares Alvin O. Eckert, who picked 5 consecutive big-money crops from his 11-year old Stark Golden Delicious trees. "The money-making possibilities of Stark Golden Delicious are without comparison," he continues, "and we have found during the last 40 years that there is more money in growing high quality tree-ripened fruit than in any other farm crop. . . ."

"My Stark Golden Delicious started to bear very young—a few apples at 3 or 4 years old, and by the time they were 6 or 7 years old were in heavy production. . . . We harvested from 2200 Stark Golden Delicious the following consecutive big-money crops: 10,051 bushels at 7 years old; 7,000 bushels at 8 years old; 15,000 bushels at 9 years old; 10,000 bushels at 10 years old; 12,000 bushels at 11 years old—a total of 54,051 bushels."

"STARK GOLDEN DELICIOUS Finest Flavored Apple in the World"

—Said Luther Burbank

This great, Young-Bearing Stark Golden Delicious Apple brings to mankind a New and Distinctive Fruit Delight—so spry and yet so free from sharp acid that anyone, even babies and invalids, can eat and enjoy it.

A Large, Glowing, Glorious Yellow Apple that is creating a sensation in the Smallest Back Yard Fruit Gardens and on the great Apple Markets of the World. Adding happiness, health and wealth to all who grow it. In Back Yards, in Home Orchards, in Local Market Orchards and in large Commercial Orchards it is the world's heaviest, youngest bearer—the biggest money maker.

Stark Golden Delicious is the **Best All-Purpose Apple**. For eating fresh it is supreme; for glorious apple pies, baked apples, canned apples (so full of rich fruit sugar it needs almost no additional sugar), exquisite jelly, apple dumplings, apple sauce—it imparts a distinctive flavor which delights the palate and fills the grower's pocketbook.

Stark Golden Delicious is one of the few fruits in the world—and the only golden apple in the past 76 years—to receive the **coveted Wilder Medal—World's Highest Award** in horticulture—awarded after exhaustive investigation proved to "The Supreme Court of Agriculture"—the American Pomological Society—the supreme merit of Stark Golden Delicious.

Stark Golden Delicious is unquestionably the most satisfactory American apple. It has everything the grower wants—size (which is extra large), color (a true clear golden), quality (unapproached by any other apple), keeping (keeps till apples come again). Its sugar content is one of the highest of any known apple—needs little for canning or cooking.

The tree is the most perfect orchard tree we have ever known. It is the World's youngest bearer of all apples. It bears practically every year and it bears tremendous crops. It is a late bloomer, often has 3 different sets of blooms. It is virtually blight proof.

ALL AMERICA PRAISES THIS YOUNG-BEARING MARVEL

Read What These People Say

Read the amazingly enthusiastic reports of people who paid only a few cents more to get these "Record-Bearing" trees that pay for themselves by bearing large, luscious fruit 2 or 3 years quicker than ordinary trees.

"All 500 of my 10-year old Stark Golden Delicious bore 15 to 20 bushels each. Never missed a crop. When they were only 10 years old, many of my trees produced 20 bushels of big, beautiful apples per tree . . . a conservative estimate of the yield from these 500 trees at 10 years would be about 15 bushels each, or more than 7500 bushels from my orchard," said Jerry Wise, Illinois.

"One crop from 75 Stark Golden Delicious trees paid for 40 acres of land."—Garland J. Hopkins, Virginia.

"Stark Golden Delicious commenced bearing at 2 years—at 4 years averaged a bushel per tree."—M. E. Wagner, Michigan.

"Began bearing 2nd year. Have borne regularly ever since."—A. W. A. Bartlett, Canada.

"Picked 198 bushels from 20 trees only 10 years old. One had 21 bushels; one 19; another 21."—J. W. Hanes, Ohio.

"Loaded last two years and carrying more than ever this year in spite of hard freezes when blossoms were open."—D. H. Brake, Michigan.

"We get much more per bushel than for others. Trees bear young."—Boyd Richards, Virginia.

"Stark Golden Delicious brings about double the price of other varieties. Customers say it is the best apple of all."—Wm. R. Houk, Indiana.

"Stark Golden Delicious brings 2 to 3 times the price of others."—E. L. Morris, Tennessee.

Actual Photo of Carl Kirn's 7 Year Old Stark Golden Delicious with \$52.00 Crop

On 10 acres of hilly land too steep for ordinary farm crops, Carl Kirn of Calhoun Co., Ill., planted Stark Apple Trees and other Stark Trees. From unusually large profits realized from this orchard, he has built a modern home, barns, and other outbuildings.

His greatest profits came from his Stark Golden Delicious, Starking, and Jonathan Apples. Some Stark Golden Delicious bore 20 or more apples at 2 years old—a good crop at 3 and 4 years—and every year since. He says that his 7, 8 and 10-year apple trees bore 15 to 20 bushels per tree and he sold his entire crop of Stark Golden Delicious and Starking (on the trees) for \$3.50 per bushel.

"7 Bushels from this 5-Year-Old STARKING Apple Tree, Stark Double-Red Delicious"

(ACTUAL PHOTOGRAPH)

Starking (Double-Red Delicious) is adding millions of dollars in extra profits to the fruit growers of America. Mr. Elon Gilbert of Richey & Gilbert, largest personally owned orchard in the Northwest, wrote us on December 22nd: "About this time of the year we like to send a small gift to those who have contributed to our success in the past year. We have 10,000 Starking Trees 1 to 6 years old. They began bearing younger than Delicious. In fact we had 7 bushels from one 5-year-old tree. This photograph combines a good picture of a Starking limb with the name Richey & Gilbert."—Elon Gilbert, Yakima Co.

STARKING—DOUBLE-RED DELICIOUS—America's

TRADE-MARK—Introduced and Sold ONLY by Stark Bros. BEWARE of Imitation So-Called Double-Red Delicious

STARKING — New Double-Red Delicious. "Finest Flavored Red Apple In All The World" said Luther Burbank

Keeps Crisp and Juicy Until Late Spring

Here is the great new apple that a few short years ago electrified the horticultural world. A marvelously flavored new apple suddenly produced by a miracle of Mother Nature to transcend in all its virtues what was at that time the world's outstanding apple, the Stark Delicious. This superior new apple is STARKING—the original genuine Double-Red Delicious.

What Coloring Weeks Earlier Means to YOU!

While retaining the superb quality and flavor of Delicious apples, the STARKING (Double-Red Delicious) has the greatly-to-be-desired habit of taking on a glowing crimson red color two or three weeks earlier. Because all-red STARKING apples can be picked while still hard-ripe, they keep crisp and juicy until late spring—do not get mealy!

\$6,000 Was Paid for a Single Limb!

It was on a genuine Stark Delicious tree that an observing orchardist discovered this new "freak" bud-sport limb which gave to the world its finest red apple. Scientists from Coast to Coast traveled thousands of miles to examine this phenomenon of nature—this limb bearing all-over-red apples, while the rest of the apples on the same tree were still green! They unanimously pronounced it a true Bud-Sport and declared that it would open a complete new era in apple growing. THEN STARK BRO'S BOUGHT THIS NEW BUD-SPORT LIMB FOR THE ALL-TIME RECORD PRICE OF \$6,000.00—so that our customers might reap the benefits of this superior red apple.

PAGE FOUR

America's Supreme Eating Apple!

Delicious flavor, crisp, juicy. An extra large apple, with the distinctive five-knob characteristic of Stark Delicious, Strong, waxy skin. Fine shipper and keeper. Strong growing, long-lived, healthy, hardy tree. Bears years younger. Heavier crops. HERE IS AN APPLE THAT IS WORTH MILLIONS TO AMERICAN FRUIT GROWERS. This is not an assertion of ours. It is the declaration of men who have seen the original STARKING tree and succeeding generation trees propagated from scions taken from that marvelous \$6,000.00 Bud-Sport limb. In their opinion, STARKING'S importance in profit to fruit growers cannot be over-estimated.

Finest Red Apple Says Luther Burbank!

Of STARKING (Double-Red Delicious) Luther Burbank said, "Simply cannot be compared with any other red apple—a rich, refreshing juiciness not found in any other apple—a gem, the finest flavored red apple in the world."

From all sections of the United States, from Canada and from South America and Mexico come glowing reports of the Younger Bearing habits of STARKING. The uniform, perfectly shaped large size of STARKING apples surprises all who plant this strain. Its crisp flesh is overflowing with an exquisite, aromatic flavor—and a rich, refreshing juiciness.

Most Valuable, Most Deliciously Flavored Red Apple

Genuine STARKING Trees Obtainable ONLY from Stark Bro's Who Own Original Tree and Bud-Sport Limb

The World's Most Popular and Profitable Red Apple — Bears Younger — Bears More Bushels — Tops all Red Apple Markets

STARKING (Double-Red Delicious) sets a remarkable price record on the markets—bringing 50c to \$1.00 a bushel more. As soon as this variety began to appear on the markets, the demand for STARKING apples and apple trees simply swept the country. The apple-eating public is demanding and paying highest market prices for STARKING—Mother Nature's greatest achievement in red apples.

Faster Growing—Yields Larger Crops!

STARKING thrives, grows fast, bears young, yields big crops annually in practically every section of the United States, and is rapidly superseding other red apples in orchards almost everywhere. No other red apple begins to rival its rich, exquisite quality.

"My STARKING trees began bearing at 4 years, STARKING is very much more vigorous than Delicious—healthy and resistant—a better shaped tree with stronger, wider crotches and more spreading habit. I would be better satisfied if all my red apples were STARKING," says J. F. Hendricks, Washington.

Higher Prices for STARKING!

Many thousands of fruit growers are today proving the importance of STARKING in sensational money-making success in all parts of the country.

"STARKING—our most popular variety—brings us higher prices and makes us more money than any other."—Dr. J. C. Lowry, N. Car.

"My STARKING trees began to BEAR 3 YEARS YOUNGER THAN OLD DELICIOUS. Earlier all-over-red coloring of STARKING makes it a far more profitable apple for growers."—R. D. Kohne, Ohio.

"All my STARKING sell quickly for \$1.00 more per bushel than Delicious due to better color and finer flavor."—Mrs. E. L. Bower, Nebr.

STARKING (Double-Red Delicious) is the brilliant red apple that is now the cornerstone of all fruit tree plantings—the one red apple of which you will want to plant the largest number of trees—the one which will bring you the most complete and unending satisfaction in your Back Yard, Fruit Garden, Local Market, or Commercial Orchard. No yard or orchard is complete without STARKING.

STARKING Trees Bear Years Younger!

Read what people have to say about this new creation of horticultural wizardry:

"My STARKING Trees bear loads without breaking. Came into bearing when 4 years old. Fruit has 100% color."—A. S. Phlegar, Va.

"My STARKING bearing at 2 years of age. At picking time fruit is 100% red and very large. Everyone marvels at its beauty."—T. S. Wiley, Ore.

"My STARKING bore much younger than Delicious. My customers are just crazy about them. Sold at top of market prices."—Geo. T. Skiff, N. Y.

NEW! Flaming Solid Red SCARLET-STAYMARED

U. S. Patent Apple

Has all superior traits of Stayman
Winesap plus solid red color — Colors
bright red all-over weeks before ripe—
Bears younger

SCARLET STAYMARED

U. S. PATENT

TREES SOLD ONLY BY STARK NURSERIES

**Miracle Apple of Horticulture. Red
all over. Brim-full of juice.
Crisp, Firm — Late Keeper.**

*"Bore good crop when old Stayman, same age, had none."
—Dawson Grady, Mo.*

Scarlet Staymared is
PROTECTED BY U. S.
PATENT — Trees sold
ONLY by Stark Nurseries

Scarlet Staymared—a miracle of horticulture—A True Bud-Sport of Stayman Winesap—a large apple that glows with scarlet red, is crammed with luscious juice, and often grows to almost giant size.

All the Superior traits that made Stayman Winesap a National Money-Making favorite—and Solid, blazing, Fiery Red Color, in addition!

Scarlet Staymared—like Stayman Winesap—is a large apple. Juicy, Spicy, Wine-like Flavor. Delicious. Keeps crisp and juicy till apples come again. It can be picked when hard-ripe and yet have the advantage of full, solid, blazing, fiery-red color.

Tree is hardy. Starts to bear even sooner than Stayman Winesap. In Home Yards, Local Market and Commercial Orchards, this new improved Stayman — Scarlet Staymared — is adding extra profits to delighted growers.

\$1,000 a Foot for Original Limb

Scarlet Staymared Apple Trees cost you only a few cents more than ordinary trees. Yet, we paid \$3,500.00—nearly \$1,000.00 a foot—for the original Bud-Sport Limb of this amazing new and improved apple.

For eating fresh, for canning, for pies, cobblers, apple butter, jellies and jams, Scarlet Staymared is ideal. It is an excellent keeper and can be stored for use till apples come again.

Scarlet Staymared is much better than regular Stayman Winesap, and so entirely new and different that it is protected by a U. S. Patent. Trees can be obtained ONLY from Stark Nurseries, Louisiana, Mo.

Read What These Scarlet Staymared Growers Say

● **Scarlet Staymared bears young—"Picked Apples from 2-Year-Old Tree."** "2 years ago this Spring I planted 100 of your Scarlet Staymared trees. This year (when only 2 years old) I picked 32 nice all-over-red apples from one of them. It looked so good I thought I would get a picture of it, so I am enclosing two exposures."—J. S. Webster, Franklin County, Virginia.

● **Scarlet Staymared is big and beautiful—"Put Catalog Pictures to Shame."** "Apples are wonderful. I picked over a bushel from 4-year-old trees. These apples would put your catalog pictures to shame."—Alfred Tracey, Erie County, Ohio.

● **Scarlet Staymared planted only one year—"Chuck-full of Bloom Following Spring."** "The lot of trees I planted one year ago had quite a surprise for me this Spring. Chuck-full of bloom. Surely will be a good bearer."—Hans Kisbaum, Scott County, Iowa.

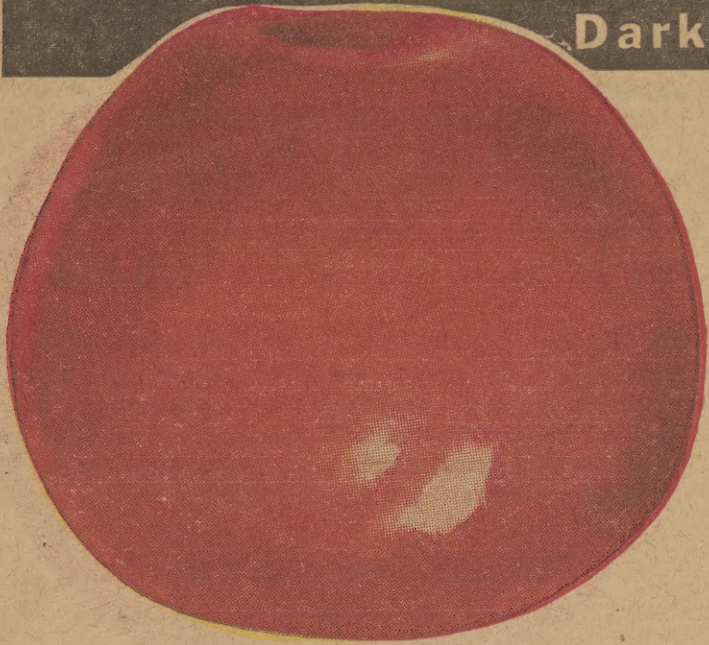

● **Scarlet Staymared enormously productive—"Average 9 Bushels to 6-Year Tree."** An average of 9 bushels per 6-year tree is the amazing crop reported by Rising Springs Orchards of Pike County, Ill. "We picked them twice and color was good enough on all of them for U. S. Fancy. Size of the apples ran 2½ inches and larger. Some trees bore 14 to 15 bushels per tree. A beautiful crop."

For Over 100 Apple Trees Write for Special Prices.

DARK-RED STAYMARED — New Solid Red Stayman

TRADE-MARK

Dark Rich Red—Colors 2 to 3 weeks sooner

Now comes DARK-RED STAYMARED —New Improved Stayman Winesap—with its dark red color, to bring greater profits where a Dark-Red-All-Over Stayman Winesap is preferred.

The old Stayman Winesap has long been a favorite—and a big money-maker—with orchardists everywhere. It is a large apple. A late ripening winter apple. A long-keeping apple. Its flesh is juicy and crisp, with a mild, pleasing acidity. The flavor has a wonderful palate-tempting spiciness somewhat like the delicious old Jeniton crossed with Winesap. Old Stayman's one drawback on the markets is its appearance. Its color is still partly green even when fully ripe.

"The New Dark-Red Staymared a Real Find —Fruit Even Better than Stayman Winesap"

When Garland Hopkins, leading fruit grower, examined the original Dark-Red Staymared Tree he wrote us, "I couldn't

find a single apple on the whole tree that had even a slight greenish cast!

"In habit of growth, foliage, health, vigor and general appearance this is a typical Stayman Winesap tree. The fruit has fine uniform size. While Dark-Red Staymared colors earlier, it does not ripen any earlier than regular Stayman Winesap, and it can be picked at the same time.

"The fruit has firmer, harder texture and has actually a better eating quality. The keeping quality of this new apple will be from 2 to 4 months longer than the old Stayman. Dark-Red Staymared's all-over-red color prevents storage scald."

"Worth 50% More Than Old Stayman"

Coffing Bro's, noted Stayman Winesap growers in Fountain County, Indiana, declare "Dark-Red Staymared is superior to old Stayman Winesap. Apples all over solid 100% red (which would eliminate storage scald) worth at least 50 per cent more per bushel than old Stayman Winesap."

Stark Bro's Have Sole Control of All Dark-Red Staymared Trees

Genuine Dark-Red Staymared Apple Trees Can Be Secured ONLY from Stark Bro's, Louisiana, Missouri

Help Solve the World-Wide Fruit Shortage. Please Lend This Post-War Catalog to Your Friends.

Another Great Stark Achievement

JONARED

(U. S. PATENT)

New Double-Red
Jonathan Apple

Amazing new Jonathan sport. Colors brilliant fiery red 2 weeks before regular Jonathan.

JONARED

(U. S. PATENT)

Glamorous brilliant red beauty has been added to the glorious Jonathan. Colors sooner and keeps longer.

"My 4-Year Jonared Trees Bore Nearly \$10.00 Worth Per Tree"
—John Cruttenden, Illinois.

Jonared Double-Red Jonathan—a marvelous new profit-making apple so new and different that it has been awarded a Plant Patent by the U. S. Government.

In addition to retaining all of the good points that made Jonathan a favorite in the homes, on the markets and in the commercial orchards of America, Jonared takes on a bright, blazing fiery red color two weeks before regular Jonathan has enough color to pick.

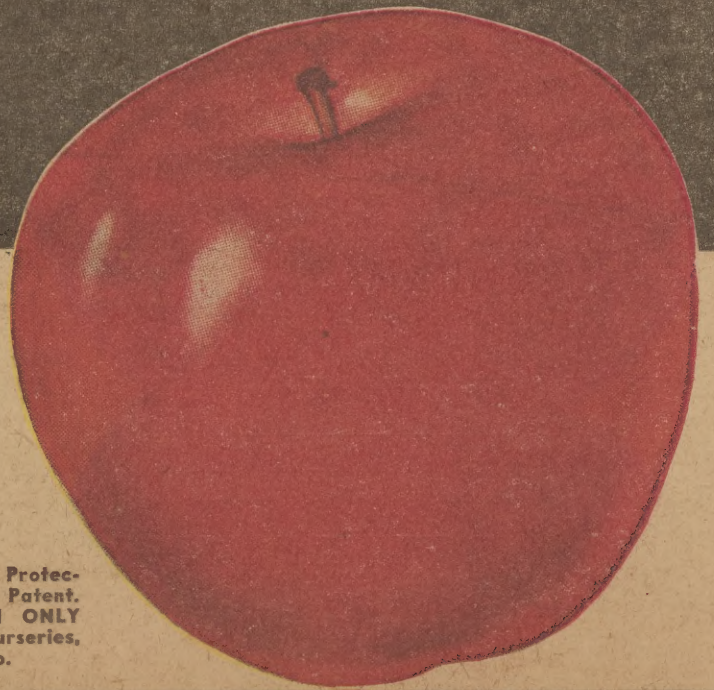

Jonared is a true Jonathan in all respects, plus extra color and younger-bearing—has the same delightful flavor of spicy, rich acidity which characterizes Jonathan. It is full of juice. Keeps crisp and juicy much longer than Jonathan. An excellent apple for eating fresh, for pies, cobblers, sauce and baking. Also, we recommend it for storing, canning, drying as well as jelly, cider and apple butter.

Same size and shape as Jonathan—but almost twice as red as Jonathan—a bright, solid red color without the sign of a stripe.

Jonared takes on this vivid red color at least 2 weeks before it is fully ripe. This enables the grower to pick Jonared when it is in perfect condition for long keeping and still have 100% Fancy Grade Color.

Jonared is a young-bearer—surpassing regular Jonathan in this respect. For greater profits, we recommend Jonared for home, local market and commercial orchards. The tree is extremely vigorous, long lived, disease resistant and hardy. Thrives in the North, East, West and South.

JONARED is Protected by U. S. Patent. Trees Sold ONLY by Stark Nurseries, Louisiana, Mo.

YOUNG-BEARING JONATHAN {TRADE-MARK}

Bears Years Younger — Regular Big Crops

In our constant, nation-wide search for a Parent Tree for our Young-Bearing Strain of Jonathan, we discovered the tree which possessed all the characteristics which we required.

Our original Jonathan Parent Tree possesses such improvements as Young-Bearing—matured 20 apples when only 2 years old, and 90 apples when only 3 years old; Heavier-Bearing—continued to bear increasingly heavy crops as it grew in size and age; Regular Bearing—Original tree had never missed a crop, and it is now much larger than regular Jonathan trees (same age) in the same row.

3-Yr. Tree Bore Bushel. "To my surprise, my Young-Bearing Jonathan bore at 2 years. Bore a bushel at 3 years, 3½ bushels at 4 years, 6 bushels at 5 years, 6 bushels at 6 years." L. M. Oliver, Polk County, Iowa.

only 7 years old. In flavor it is next to Stark Golden Delicious." L. D. Adams, Pike Co., Kentucky.

6 Successive Crops from 3 Yr. Tree. "My 3-Yr. Young-Bearing Jonathan has had 6 crops—nice red apples. When 2 years it bore 21 apples. I won \$5.00 prize on them. Has had nice crop every year since—14 bushels last year when

Want More Young-Bearing Jonathans. "I thought that was just all talk about your Young-Bearing Jonathan bearing younger than others, but those Young-Bearing Jonathans I bought from you did bear a lot younger than any other Jonathans—and I want to buy more," declared a prominent Calhoun County, Ill., apple grower when he visited our nursery recently.

Millions of Apple Trees Need Planting to Relieve Alarming Shortage.

DOUBLE-RED ROME BEAUTY — Stark Largest Reddest

(TRADE-MARK)

Best Red Baking Apple — Bears Big Regular Crops

Here is the answer to the demand of fruit growers and the buying public for a big, beautiful, solid red, late-keeping apple of quality that will stand handling and keep all winter. For baked apples, pies, dumplings, sauce and other culinary uses, our big strain of Stark Double-Red Rome Beauty has no equal—the best of all the Rome Beauty family. Added to all the good qualities of regular Rome Beauty, this new true Bud Sport is a bright, flashing red color all over, greatly increasing growers' profits.

A beautiful sparkling red apple. Large uniform size. Crisp, juicy, aromatic white flesh. One of the best keepers of all apples—keeps till apples come again.

Blooms late. A sure bearer. A frost dodger. One year Stark Double-Red Rome Beauty was one of only four varieties out of 200 in our Test Orchard that bore after late killing frost. Hardy tree. In fact, Northern growers now declare it is one of their most profitable varieties. Demand for the new Stark Double-Red Rome Beauty Strain is growing every year, as growers acclaim it as one of their youngest bearers and biggest payers.

"One of Most Valuable of 50 Varieties." "I am sending you sample of Double-Red Rome Beauty, which with us is one of the most valuable of 50 varieties. Good pollinizer. Annual bearer, commencing at young age. One of the best keepers. So attractive it sells well." L. J. Clifton, New York.

"Best Red Rome." "Your Stark Double-Red Rome Strain is best of all Romes tested here. Uniform in size, and the color is always perfect." W. S. Blair, Supt. Dominion Exp. Farms, Nova Scotia.

"Bears Every Year." "Very best apple for this climate. Bears annually. Blooms late and frosts do not greatly affect its bearing qualities." F. M. Jones, Santa Fe Co., New Mexico.

"One of Largest Apples." "One of the largest apples we have, especially when grown on bottom land. This variety is a reliable cropper, yet seldom overbears, the fruit being evenly distributed over the tree." Edwin H. Riehl, Ill. Exp. Station.

"Demand Growing Every Year." "Demand for Stark Double-Red Rome Beauty is greater every year. One of the leading commercial apples in our valley." R. S. Purtee, Delta Co., Colorado.

"Bring High Prices." "I planted the first Stark Double-Red Rome Beauties in Colorado. Am now getting \$3.00 to \$3.50 per bushel on the Denver market." W. S. Coburn, Colorado State Board of Hort.

"Bears Young." "Begins bearing at a very early age, and has a handsome appearance. Always marketable at good prices. Good keeper and a good commercial apple." T. H. Atkinson, Chelan Co., Washington.

Stark Bro's Have Exclusive Control of Stark Dbl.-Red Rome Beauty Apple Trees
And Stark Double-Red Rome Beauty (Trade-Mark) Trees Can Be Secured ONLY from Stark Bro's, Louisiana, Mo.

If You Want 100 or More Apple Trees, Write Commercial-Wholesale Dept., Stark Nurseries, Louisiana, Mo.

NEWEST AND GREATEST CREATIONS IN PEACHES

Grow to undreamed of size, color Delicious flavor—luscious juiciness

HAL-BERTA GIANT

World's Largest Peach—U.S. Patent

Here's a Peach so amazing that we bought it for the highest price ever paid for a Peach, and it was honored with the First U. S. Patent ever issued to a fruit tree. A PERFECT FREESTONE.

Hal-Berta Giant is a huge, beautiful red on gold peach—many peaches weigh a pound each. Perfect freestone. Almost fuzzless. Deliciously flavored. Firm, solid, luscious golden yellow flesh. A small pit. Ripens Mid-Season—usually 4 days to a week after J. H. Hale and Elberta. Excellent for Quick-freezing.

Has all the delicious flavor and melting firm flesh of J. H. Hale. Larger than Hale and bears heavier. Hardy. Fine shipper. Young bearer.

"2-year-old trees bore 1½ bushels. Most beautiful peaches I ever saw."—R. C. Perry, Wash.

"Finest Peach in East. Size, color and flavor unequalled. Trees stand more severe weather than any other."—Norman C. Brown, Penn.

"I was offered 25¢ apiece for Hal-Bertas. 3-year-old tree bore big crop. Averaged about a pound each."—Jess Henson, Okla.

STARK EARLY ELBERTA

The One Peach Chosen as Best From 4 Million Trees Sent Out for Testing

World's Finest Canning Freestone

Stark Early Elberta—Genuine Summer Gleason (Trade-Mark) Strain—is a beautiful large golden yellow peach, blending into a glorious red on sunny side. Luscious fine-grained golden yellow flesh is flavored with juice as sweet as nectar clear to the pit. A Freestone. Ripe 10 days before Elberta.

Stark Early Elberta allures with its beauty, gratifies with its quality and sells for top market prices everywhere.

It is today the best known, best flavored and best liked peach of the nation. World's finest canning freestone. It should be in every Home Yard, Local Market and Commercial Orchard. Beware of Bogus Imitation Early Elbertas. Genuine Summer Gleason strain trees sold ONLY by Stark.

"Stark Early Elberta is one of the handsomest, most shapely and beautifully colored of peaches. The quality fully carries out its appearance. A model peach. Congratulations!"—Luther Burbank.

ELBERTA "Queen"

(TRADE-MARK)

Stark's Large Queen Strain is Larger, Rounder and Often Bings 50¢ to 75¢ a Bushel More Than Ordinary Strains of Elberta.

Mid-Season Yellow Freestone. Best known American Peach—the Standard by which all others are judged. Every Home and Commercial Orchard should have our Large Queen Strain—sold ONLY by Stark Nurseries.

"My Elbertas Bought From You are a far better strain than ordinary Elbertas grown by others around here, who bought their trees from other nurseries. Their Elbertas are thinner, narrower, and more pointed, while mine are large, round and fat looking and bring me at least 50 cents more per bushel than their strain of Elbertas."—U. L. Coleman, Lawrence Co., Mo.

CUMBERLAND—Hardy

Extremely Hardy. Early White Semi-Free

In recent severe winter Cumberland proved to be one of the hardest among all varieties in Stark Test Orchard. Large as Belle of Georgia. Oval in shape. Beautiful red and white. Creamy white flesh is almost free from pit. Firmer, Better Quality than most white peaches. Excellent flavor. Prolific and young bearer. Originated by N. J. Exp. Sta. Ripens about 26 days before Elberta.

WORLD'S EARLIEST — Earliest Known Peach

(TRADE-MARK)

NEW — EXTREMELY HARDY —

World's Earliest is a Sensational Young Bearer new peach that every home yard and commercial grower will want to try.

It is the Earliest Ripening Peach known—10 days ahead of its famous early-ripening parent, Red Bird Cling Early. In addition to holding the World's Record for earliness, World's Earliest also won the "Hardiness Championship" in our Test Orchards last winter. Last January it dropped to 17° below zero and again in February it dropped down to 14° below. Yet, World's Earliest came through with one

World's Earliest Trees are Sold ONLY by Stark Bro's Nurseries, Louisiana, Mo.

STARK SURE-CROP (U.S. Patent)

Hardest Peach Known—New

Extremely Early. Has proved to be "hardest of all" peaches of hundreds in our Test Orchards, bearing good crops of delicious, big red blushed peaches when other varieties in the same orchard failed to bear—The earliest high quality white fleshed Cling Peach!

Big, brilliant red-skinned, very small seed and thick, firm, juicy white flesh—excellent canning and shipping peach for the early high-priced markets. Almost fuzzless. Trees healthy, vigorous and enormously productive. First fruits ripe about 40 days before Elberta.

RED BIRD CLING, Early

Popular Very Early Market Peach

Bright glowing color—"red as fire"—on a background of creamy white.

Handsome Large—as large as Elberta. Ripens about 45 days before Elberta. Clingstone. Good to eat and fine for pies, cobbles and peach pickles. Quality good, especially when left on the tree until they get fully ripe.

"Break all young-bearing records." "Break all bearing records." "One Crop paid for my whole orchard." "Most profitable early peach."

JUNE ELBERTA

Earliest Yellow Semi-Freestone

The earliest ripening peach of the Elberta type! "Picked ½ bushel to 3 pecks from my 2-year-old June Elberta tree. By far the best early peach I ever saw."—Wm. H. Welch, Mo.

Rich golden yellow flesh. Ripens just after Red Bird Cling—about 45 days before Elberta. Its beautiful color, large size and good shipping quality make it one of the big profit-making peaches.

ALTON

Best Early White Freestone

A magnificent peach! Large. White fleshed. Freestone, sometimes semi-free. Young and heavy bearer. One of the sweetest and most delicious of peaches. Ideal for eating fresh and for canning. Tree extremely hardy and vigorous—bears crops when many others fail.

Prof. L. R. Taft of Michigan reported "Alton is one of the hardest peaches we grow in Michigan." Fruit sweet, juicy. Flavor rich and delicious. Tree strong, vigorous, immensely productive and extremely hardy.

1 World's Earliest 1 Stark Sure Crop
1 Stark Early Elberta 1 Hal-Berta Giant
1 Burbank's July Elberta 1 Stark Late Elberta

VERY YOUNG, HEAVY BEARER

of the best crops in our Peach Test Orchard, which includes all leading varieties.

Beautiful bright red skin. Firm, juicy, creamy flesh. Better flavor than Red Bird. Late heavy bloomer. Excellent shipper. Extremely hardy, both in tree and bud—bears even where most varieties fail. Medium size. Clingstone.

World's Earliest comes on the market first, when the public is fruit hungry and anxious to buy peaches at top prices. Good quality for such an extremely early peach.

World's Earliest Trees are Sold ONLY by Stark Bro's Nurseries, Louisiana, Mo.

GOLDEN JUBILEE

One of the Earliest Yellow Freestones

A large very early true Freestone of Elberta type. Very profitable for home and local markets. Ripe about 25 days before Elberta.

Fruit is clear bright deep yellow. Large. Oblong shape. Delicious flavor with no bitterness at pit.

Developed by New Jersey Exp. Station. Fruit growers declare: "One of the most desirable yellow fleshed freestones of its season."

GOLDEN ELBERTA CLING

World's Finest Canning Peach

Most beautiful Yellow Clingstone Peach. Ripens 5 days before Elberta. Delicious, honey-sweet flesh.

After years of rigid tests we can now unqualifiedly recommend Golden Elberta Cling as the Best Canning Peach.

The fruit resembles Stark Early Elberta. The same marvelous golden color. Superb Quality. Honey Sweet juice and flesh. Most alluring quality of any Clingstone. So firm and solid. Excellent shipper. Fine for Home Yards and Market Orchards. Introduced and sold ONLY by Stark.

STARK LATE ELBERTA

Large, Late Yellow Freestone—Should Be in Every Planting—Home Yard or Market, to Give Succession of Ripening.

This magnificent big peach fills the gap between Hal-Berta Giant and Krummel October. Ripens when peaches are scarce and high quality peaches are in great demand for eating fresh, for cobbles, pies and for canning. Hardy, vigorous tree.

This genuine "Record Bearer" Strain Sold ONLY by Stark.

KRUMMEL OCTOBER

Best, Handsomest Very Late Peach

Latest Yellow Freestone ripe 40 days after Elberta. Gloriously red and golden color. Large, almost round. Lusciously sweet clear to pit. Firm, ships perfectly. A general favorite for eating, drying, best canning quality, fine for sweet peach pickles. Tree strong grower. Extremely hardy. Bears very young. Every Home Yard, Local and Commercial Orchard will want Krummel October.

JULY ELBERTA

Burbank's U. S. Patent

Best Very Early Yellow Peach

New U. S. Patent. Freestone, Greatest Sensation of All Burbank Peach Creations!

"A Winner!" declares J. Carl Ward, fruit expert of New York. He says: "I picked as many as 20 peaches from trees only 2 years old. We have planted 490 trees. Excellent size. Wonderful scarlet coloring so brilliant that fruit on trees can be seen a great distance. Very fine meat. A small pit. Perfect freestone. Flavor very unusual—to me it tastes like a blend of Early Crawford and J. H. Hale."

Pouring in from the West, Central West, South, North, East and Canada are enthusiastic reports of growers who pronounce Burbank's July Elberta—"Peach Sensation of the Century!" "Best shipper of all."

"Extremely hardy—loaded when others fail." "Year after year July Elberta makes us more money than all others in our orchards." "\$600.00 net profit from 2½ acres." "Outstanding commercial peach." "Bear in spite of drought and cold." "Michigan's outstanding peach." "Fine in Canada." "Best peach for West."

For Home Yards, Local Market Orchards, Commercial Orchards, Roadside Stands, in Back Yards and on the market, this Very Early Yellow Freestone with its large size, vivid red color, luscious, flavor and extreme hardiness is bringing quick profits to its growers—often coming into bearing when only 2 years of age. Ripens nearly 15 days before Elberta, and ahead of Halehaven. Patented and sold ONLY by Stark.

BURBANK'S GIANT

Huge Yellow Freestone

Tremendous size—often 3½ to 4 inches in diameter. Delicious flavor. Thick golden yellow flesh all the way to the small pit—no red around pit. Excellent canning peach. 1½-year-old tree only 2½ ft. tall in our Nursery row bore extra large peaches after one of the hardest winters in 20 years, with the temperature 14° below. Ripe 10 days before Elberta.

J. H. HALE

The Million Dollar Mammoth Peach

This Huge, Mid-Season Yellow Freestone surpasses Elbertas in both size and flavor.

Mammoth in size. Golden yellow color, overspread with vivid carmine. Perfect Freestone. Almost fuzzless. Golden yellow flesh. Firm, yet melting and tender. Marvelous shipper. One of the most popular peaches on the Mid-Season market and steadily gaining in favor. The Million Dollar Peach.

Recommended for Home Yards, Local Market and Commercial Orchard plantings. A national favorite for eating fresh, canning, drying, quick freezing, etc.

BORE SECOND SEASON

"Should I want any more trees in the future I will order of you. The J. H. Hale peach trees I got a year ago this spring bore this year. Very fine in appearance and flavor."—A. Berry, Calaveras Co., California.

HALEHAVEN

New, Early Yellow Freestone

A Winner! A new peach creation combining the good qualities of J. H. Hale and South Haven. Large size. Beautiful contrasting Red and Yellow color. One of the most beautiful peaches. Tree is hardy, strong and vigorous. Bears younger. Bears heavy crops. Bred and recommended by Mich. Exp. Sta. Ripens 12 days before Elberta.

GIANT HARDY-BERTA New, U. S. Patent

The peach that every grower wants—30% larger than Elberta. Late ripening Yellow Freestone. Bore crops even after severe winter with temperatures standing at 17° to 20° below zero. Originator says Cling Hardyberta is the hardest peach I know. It stood 20° below and fruited." Much better than Elberta—no bitterness at pit. Good shipper. Ripe 7 to 10 days after Elberta. Trees Sold ONLY by Stark Bro's.

PEACH RIPENING SEASONS, Including STARK-BURBANK Varieties

EVERY HOME OWNER SHOULD SELECT A CONTINUOUS SUCCESSION OF PEACHES RIPENING FROM EARLY SUMMER TO LATE FALL

All varieties hereafter listed follow in Order of Ripening Season. Starred varieties (***) are the best of their type and ripening season.

VERY EARLY

***WORLD'S EARLIEST—New Leader—described above.

MAYFLOWER—Very Early Red Blushed White Semi-Freestone. For home and market.

***RED BIRD CLING, EARLY—Described above.

***JUNE ELBERTA—Fully described above.

***STARK SURE CROP—New. Hardest. Described above.

***CUMBERLAND—Early White Semi-Freestone. Large Quality very good. Described above.

***FISHER—New U. S. Patent Peach. Very Early Yellow. Semi-Free. Splendid Quality.

***REDHAVEN—Earliest Yellow Freestone.

EARLY

***GOLDEN JUBILEE—Fully described on page 9.

***EUREKA HARDY—Very Hardy. Early Semi-Freestone. Quick Bearer. The "Ironclad" of the peach family. Beautiful rosy-cheeked white fleshed Semi-Freestone.

***EARLY MAMIE ROSS—Early Semi Freestone. Delicious quality, bright red-cheeked creamy white flesh peach. Tree hardy.

***ROCHESTER—Early Yellow Freestone. A beautiful very hardy peach. Excellent quality. Large Mottled red and gold. Yellow Freestone.

***STARK EARLY FLAME—Splendid New Delicious Fuzzless Peach. Fully described in box at left.

***ALTON—Fully described above.

***BURBANK'S JULY ELBERTA—New Leader—A Winner! Described on page 9.

MID-SEASON

***BURBANK'S JULY GOLD—A Leader. Early Yellow Freestone. Exceptionally young bearer and extremely hardy. Year trees in our nursery bore fruit after hard long winter with 14 below zero weather. Fruit is clear orange yellow. Averages 2½ to 3 inches in size. Rich clear golden yellow flesh, no red at pit. Delightful flavor. Excellent quality.

***HILEY—Early White Freestone. Highly colored on sunny side. Perfect freestone. Long keeper. Superb shipper. 2 weeks earlier than Belle of Georgia, which it resembles.

***SOUTH HAVEN—Early Yellow Freestone. Attractive yellow freestone. Good size, excellent quality. Tree vigorous, very hardy and productive. Recommended for Home Yards and Local Market Orchards. Originated by Michigan Exp. Station. Halehaven is better.

***HALEHAVEN—Fully described on page 9.

***BELLE OF GEORGIA—Mid-Season White Freestone. Large showy peach—rich creamy white with brilliant red blush. Often called Red and White Elberta. Simply delicious quality. Splendid shipper. One of the best peaches.

***BURBANK'S GIANT—A Leader—Mid-Season Yellow Freestone. Tremendous size—usually even larger than J. H. Hale. Delicious flavor. Fully described above.

***GIANT SNOWBALL—Mid-Season Freestone. Huge white peach overspread with flaming red. Creamy white flesh. Juicy. True freestone. Larger and has thicker flesh than any other white peach. Ripe just before Elberta.

***FLAMING GOLD FUZZLESS PEACH—Created by Luther Burbank. Fully described in a box at left.

***CHAMPION—The Standard of Quality in White Peaches. A delicious peach. Flesh rich and satisfying. Tree hardy. A good bearer. Ripens 14 days before Elberta Freestone.

***ILLINOIS (Trade-Mark)—Mid-Season White Freestone. Red cheeked. Creamy white. Juicy. Spicy flavor. Ships and sells well. Ripens after Champion and even superior to that high quality peach. Best of its class and season.

***STARK EARLY ELBERTA—A leader. Described above.

***CRAWFORD EARLY IMPROVED—Early Yellow Freestone. Deep yellow peach with striking red cheek. Flavor is exquisite.

***GOLDEN ELBERTA CLING—A Leader. Described above.

***ELBERTA QUEEN, Large Strain—See page 8.

***FUZZLESS-BERTA—U. S. Patent—described in box at left.

***J. H. HALE—Fully described above.

***GIANT HARDYBERTA—U. S. Patent. A leader. Late Yellow Freestone. Extremely hardy—bears when others fail. Bore even after trees stood 7 to 20 degrees below zero weather. Elberta type. Fully described above.

***HYSLOP CLING—"Sugar Cling." Late White Clingstone. Large. Round. Handsome. Sweet, tender, juicy. For canning and preserves.

***HAL-BERTA GIANT—A Leader. Fully described on page 8.

***STARK SUMMER SNOW—Mid-Season. White Canning Cling. A favorite for pickles. Wonderful for canning. Heath type. Snow-white flesh.

***HALATE—Large late yellow Freestone.

LATE

***CRAWFORD LATE IMPROVED—Late Yellow Freestone. Large yellow freestone. Delicious quality. Good shipper. Eating, canning, drying.

***SHIPPER'S LATE RED—Late Yellow Freestone. Huge, red-blushed yellow peach of great beauty. Good quality. Fine commercial peach.

***STARK LATE ELBERTA—Described above.

***INDIAN BLOOD CLING—Big, Red-Fleshed Peach—Late. Flesh red as best. Large. Handsome. Ideal for pickling and preserving.

***MARTHA FERN—Late White Cling. Fruit immense size. Quality superb. Creamy white with pink blush. Tree hardy and thrifty.

***MAMMOTH HEATH CLING—Very Late White Clingstone. Large. Red blushed. Creamy white.

***STARK HEATH CLING—Very Late Heath. Fruit tender. Melting. Juicy. Luscious. Firm. Does not bruise easily and ships well. Hardy.

***KRUMMEL OCTOBER—Fully described above.

New — FUZZLESS PEACHES

STARK EARLY FLAME—FUZZLESS PEACH

U. S. Patent Pending

We now offer the Stark Early Flame as the earliest, Freestone Yellow-Fleshed Fuzzless peach; as good in size, color and quality as its parent, the famous Fuzzless Burbank Flaming Gold and 2 weeks earlier—ripe with Golden Jubilee and very early peaches. Skin smooth, glossy, rich red underlaid with gold. Flesh yellow, firm, "chevy" and indescribably luscious. Unique rich tangy flavor. Ripens 20 days before Elberta—so early it does not compete with mid-season peaches. Tree strong, sturdy, harder than most peaches.

FLAMING GOLD — FUZZLESS PEACH

(TRADE-MARK)

Large size—Smooth, fuzzless, waxy skin of flashing gold, blending into flaming red. Delicious peach flavor amazed the Horticultural World! Rich, golden-orange flesh of honey-sweetness—firm fleshed and juicy. Stone perfectly free and small. Splendid shipper. Does not crack. RIPENS ABOUT ONE WEEK BEFORE ELBERTA PEACHES. Extremely hardy. Young bearer—1 year trees in our nursery (after 14 below zero) set a good crop.

FUZZLESS-BERTA — FUZZLESS PEACH

(U. S. PATENT)

Delicious Fuzzless Yellow Freestone Peach. Delicious Fuzzless Yellow Freestone Peach originated by Dr. F. W. Hoffman. Smooth as a plum. Golden yellow skin is splashed with fiery red. Originator says "Fuzzless-Berta about same growth and as hardy as Elberta—and ripens about the same time."

APRICOTS

Wilson DELICIOUS

Hardy Leader—Large, Early

Tests prove it "Best of All Apricots." Large size—20% larger than Moorpark. Beautiful Red and orange yellow color. Flesh firm. Juicy with a rich, aromatic flavor. Fruit hangs well. Bears when others fail. Splendid keeper. Stockham Bro's wrote us "5 to 10 days earlier than any other apricot and sold for far more." Strong growing hardy trees. Fine for Home Yards, Local Market and Commercial Orchards. Delicious for eating fresh, cooking, canning and drying.

***STELLA—Hardy

"The Apricot that is harder than a peach. Fruit is large. Delicious quality. Stella originated in Nebraska where the sub-zero weather demands hardness in fruits. Stella not only thrives and bears in Nebraska but in states still farther North. Strong grower.

Stark Erli-Orange

New—U. S. Patent

Earliest of all Apricots. "Ripe 10 days earlier than any known Apricot—at least 2 weeks before Moorpark. A strikingly new and different flavor—sweet and rich" says originator.

In addition to early ripening this new Apricot is large, has firm rich orange-colored flesh, beautiful color and luscious flavor. Good shipper.

SUMMER APPLES

● 1 STARK GOLDEN DELICIOUS. "Finest flavored apple in all the world," said Luther Burbank. Youngest bearing apple. Rich, juicy, spicy flavor that commands top prices everywhere. Many bear big apples at 3 years old, some bear at 2 years. Fully described on Pages 2 and 3.

● 1 JONARED. New Double-Red Jonathan. Same spicy, rich flavor that made Jonathan one of America's most popular apples, plus brilliant, fiery red color 2 weeks sooner. Avoids dropping. Keeps longer. Makes bigger profits for growers. Fully described on Page 7.

● 1 DARK-RED STAYMARED. New, rich, dark red Stayman Colors 2 to 3 weeks sooner. Heavy bearer. Late keeper. 100% solid red. Firm texture, delicious spicy flavor. Fully described on Page 6.

If Over 100 Apple Trees Are Wanted, Writes for Prices.

● 1 STARKING. Double-Red Delicious. "World's finest flavored red apple" Large, beautiful, ideal shape. Amazing color improvement of Stark Delicious. Can be picked blood red while still hard, to keep crisp and juicy, until late Spring. Fully described and illustrated on Pages 4 and 5.

● 1 STARK REDGOLD. New Red Hybrid of Stark Golden Delicious. We paid World-Record Price of \$7,500.00 for it. Rivals its famous parent, Stark Golden Delicious in young-bearing and delicious flavor. Ready to eat just before Jonathan.

● SCARLET STAYMARED. New profit-maker. Wonderful flavor—long keeper. A Stayman Winesap plus bright flashing all-over-red which brings higher prices. Fully described on Page 6.

For Regular Prices on All Apple Trees See Page 14.

● 1 EARLY RED BIRD. Earliest of all apples. Strikingly beautiful. Fiery, flaming scarlet red. Good size. Ripens 7 to 10 days earlier than Yellow Transparent. Tree Vigorous, Strong, Spreading, Hardy. Bears young, and produces tremendous annual crops.

● 1 HENRY CLAY (Trade-Mark). Earliest yellow apple. Looks like Maiden Blush—better, more beautiful, 2 months earlier. Hardy. Late bloomer. Regular bearer.

● 1 WEALTHY. Double-Red. Best Fall Apple. Hardy. Fine West, North, East, South. Everywhere the best of its season. Bears extremely young and every year. Long lived. Fruit brilliant flashing red. Medium to large. Quality superb. Wonderful wine-like flavor. Twice as red as old Wealthy.

- 1 WILSON RED JUNE. Enormous in size for an early apple. Brilliant, glorious deep red. Tree extremely hardy. Succeeds perfectly in far North—standing 40 degrees below zero without injury. No other Summer apple can compare with it in size and beauty. Ships well and goes on market in fine shape.
- 1 LODI, EARLY GOLDEN. Early Summer apple. Quick bearing. Blight-resistant improvement over Yellow Transparent. Fruit much larger. Bears younger. Uniform conic shape. Heavy cropper. Young bearer.
- 1 SUMMER CHAMPION. Most beautiful, best quality, largest and best shipper of all Late Summer Apples. Heavy bearer. Young bearer. Hardy. Fruit big, handsome, brilliant red blushed. Keeps well. Mtn. Grove Experiment Station reports: "Good color, uniform size. Bears regularly and heavily."

- YORK-A-RED. U. S. Patent. Best of all York Imperial Red Sports. Solid red color. Tree vigorous. Hardy, heavy bearer. A great favorite with commercial growers. Fruit large, crisp, firm. Very late keeper.
- 1 GRIMES GOLDEN, "Double-Life." Parent Tree averaged 40 bushels for 14 years. Hardy Tree. Long lived. Famous spicy Grimes Golden Apple; for over 50 years the Queen of Quality. Medium size, beautiful golden yellow. Conical shape. Alluring flavor surpassed only by Stark Golden Delicious.
- 1 YOUNG-BEARING JONATHAN. New, quick-bearing strain that bears younger.

- 1 STARK KING DAVID (Trade-Mark). Late bloomer—sure bearer. Youngest, heaviest bearer we have ever fruited except Stark Golden Delicious. Full of spicy, wine-like juice. Rich cream colored flesh. Solid deep red.
- 1 DOUBLE-RED ROME BEAUTY. World's Best Baking Apple. Improved Sport. Has every good point of Rome Beauty. In addition, it is a bright solid over-all-red in color, adding tremendously to its value.
- 1 STARK JON-GRIMES. New. Sure bearer. Large, high quality late summer apple. Regular and heavy bearer. Excellent for eating and cooking.

ILLUSTRATIONS ACTUAL SIZE

MONTEARLY

Most Profitable New Cherries for Home and Market

Many Discovered, Introduced, Patented, Trade-Marked and Sold Only by Stark Bro's of Louisiana, Missouri

STARK GOLD

(Trade-Mark)—Hardest Sweet Known
Hardiest Sweet Cherry. At last! An amazing tree for every home—for the North as well as the South. Magnificent large cherries. Superb, spicy, sweet flavor. A pure lustrous gold in color. Bore on a 2-year tree. Stood 40 degrees below zero in Nebraska. Hardy, healthy tree. Ripens 2 weeks after Early Richmond. Flesh is sweet, crisp, juicy, yet firm. A good shipper. Marvelous for eating fresh, canning and preserves.

• **RAINBOW STRIPE (Lambert Sport)**—New Sweet. Most unique Sweet Cherry. Same large size and delicious flavor as Lambert, with creamy white skin but with a deep red stripe running from stem to tip. Ripens mid-season. Excellent shipper.

• **SENECA—Earliest of All.** Resembles black Tartarian in size and color. 2 weeks earlier. Rich, sweet, juicy. Tree hardy. Heavy bearer. Should be planted everywhere.

MONTMORENCY STARK

(Trade-Mark)—World's Best Tart Pie and Canning Cherry

Extra Large Stark Strain. Best of all Monts—for pies, quick-freezing, canning, preserving and eating fresh. Never fails. Brilliant red. Tender yellow flesh. Delicious. Makes pies, preserves, cobbles and puddings of lip-smacking goodness. Montmorency Stark trees often bear fruit second year.

"300.00 per Acre Extra from Chicken Yard." "I bought a 5 1/2-acre tract for chicken farm. It was planted to Apple trees with Cherry trees as fillers. They have never been cultivated or pruned. Yet my Cherry trees alone brought me an additional net income of \$300.00 per acre plus income from Apples and chickens."—A. K. McGraw, Wash.

• **STARK LAMBERT (Hardy).** Hardy Strain Large Sweet. Dark purplish-red turning almost jet black when ripe. Skin glossy—tough enough to insure good shipping. Flesh firm, rich, sweet, delicious.

MONTEARLY

(U. S. Patent)—Tart, Pie Cherry

Earliest of all Sour Cherries—2 weeks BEFORE Montmorency. Larger than Richmond and Earlier. Deep rich wine color with deep red juice. Less tart than regular Montmorency. Meaty. Superior shipper.

• **BLACK TARTARIAN IMPROVED**—Sweet, Hardy. Deacon Strain. Early. Best, most dependable of large Black Tartarian type. Hardy, black team-mate for Stark Gold. Best pollenizer. Gets early high prices. Extra large. Heart-shaped. Purplish red-fleshed. Delicious for eating fresh, canning, pies, preserves. Fine shipper.

• **BING (Early Sweet).** Delicious dark red, rich purplish, firm flesh—Tree hardy, foliage heavy, productive.

• **OTHER VARIETIES.** See Price List, Page 14.

BURBANK BLACK GIANT

(Trade-Mark)—Hardy New Sweet

A luscious new Sweet Cherry of large size. Created by the wizardry of Luther Burbank and prized by him as the best of his Black Sweet Cherries!

Glowing red flesh is packed with nectar-sweet juice. Firm and meaty. One of the best shippers—arrived in perfect shape after traveling thousands of miles in hot weather with no refrigeration.

The dark red entrancing beauty and distinctive nectar-sweet flavor make Black Giant a favorite of the Home and Market growers. Tree is hardy. A young bearer.

• **MONTLATA—(U. S. Patent)—Tart, Pie Cherry.** Montlata ripens 2 weeks AFTER Montmorency. Fruit sells for the same high prices as English Morello, and bears heavier.

• **SUDA HARDY—Improved Morello.** Late ripening red tart cherry. Tree hardy and bears enormous crops. Improved Morello—larger, sweeter, better quality, bigger crops.

Stark-Burbank Greatest New Plums

Our experts are confident that the new Burbank creations we are now offering far outclass all other varieties of similar type and season. Many Stark-Burbank Plum creations are so different from ordinary plums that they are almost distinct new fruits.

GREAT YELLOW

Burbank's—U. S. Patented

Earliest Yellow Freestone Plum. Ripens even earlier than Early Gold and is much larger. One of the most outstanding golden plums of all the Burbank Wonder Creations. Often a freestone when fully ripe, from 2 to 2 1/2 inches in diameter, excellent quality. Very tiny seed. Pure golden yellow without a sign of blush. Mild and sweet. Top budbed limbs only a year and a half old bore a splendid crop of huge plums in North Missouri, after 14 below zero.

GOLD

(Trade-Mark). Our \$3,000 Burbank Plum. Midseason

Fruit clear, light transparent golden yellow, beautifully blushed with bright cherry red when fully ripe. Large. Sweet delicious quality. Very young tremendous bearer. Hardy for North. One of Burbank's greatest creations. Should be in every orchard. Succeeds coast to coast.

STARK GREEN GAGE

Ripens mid-season. "Sweet as honey." One of most luscious fruits on earth. Greenish yellow. Golden flesh. Strong growing tree. Superior for canning and preserving.

ELEPHANT HEART

(Trade-Mark)

Burbank's New Freestone Giant. Red-Fleshed Plum Sensation. Amazing flavor like a sweet Ox Heart cherry. Strong grower, hardy. The supreme BEST of over 800 new varieties of great promise perfected by Stark Bro's and Luther Burbank, after years of exacting testing and selection. One of the outstanding achievements of the Greatest Fruit Wonder Worker in History.

OMAHA

Very Hardy, Sweet Ripens Midseason

A very large plum. Dark rich red. Almost perfectly round. Meaty, sweet and delicious golden-yellow flesh. Excellent for eating, canning, cooking. For home fruit gardens and commercial orchards.

STARK GIANT DAMSON

(Big Mackey) True Freestone

Ripens late. Largest and best Damson. Our propagation from extra productive Record-Bearing Parent tree. Fruit deep bluish purple, juicy. Small stone. Hardy, easy to grow. Home and commercial orchards.

Profitable and Popular Stark Pears

LINCOLN

Best Pear for Central West

From the Alleghenies to the Rocky Mountains—from the Great Lakes to the Gulf—genuine Stark Lincoln has proved outstanding among Pears. Fruit is Large. A clear, beautiful golden yellow pear, with sometimes a glowing blush. Trees are remarkably resistant to blight. Ripens in late summer.

BARTLETT

A World-Wide Favorite

Large. Rich golden yellow with rosy blush. Very juicy. Delicious flavor has made it a favorite everywhere. One of the best pears for eating fresh, for canning and for shipping. Ripens in Summer. An excellent pear for the home yard. A good commercial favorite.

KIEFFER

Most Widely Planted Winter Pear

Large, rich, golden-yellow, sometimes tinted red. Fine for canning and baking, but only fair quality for eating fresh. To properly ripen for eating, pick when they reach full size, but before they color their rich golden yellow; store in dark, dry room. Tree vigorous, young and heavy bearer—outbears everything in our orchard. Resists blight. Succeeds everywhere.

GRAND CHAMPION

Astounding New U. S. Patent Pear

Delicious as Bartlett. New late Bartlett type. U. S. Plant Patent Records declare—"Grand Champion has all the delicious quality and other characteristics which are winning nation-wide favor for Gorham, its parent. In addition Grand Champion has beautiful solid Gold-Russet skin." Trees SOLD ONLY BY STARK.

FAME

(Trade-Mark). Delicious, Hardy, Blight Resistant

A beautiful large yellow pear with carmine blush. One of the hardiest and most delicious pears in the world. Excellent for eating fresh and for canning and pear preserves.

Tree is hardy, bears young. Long-lived. Blight-resistant. We highly recommend Fame for Home Yard Orchards and Local Market Orchards. Trees SOLD ONLY BY STARK BRO'S.

STARK SECKEL

Large Strain Sugar Pear

For more than a century Seckel has been the standard of excellence by which pears have been judged. Its spicy honeyed flavor makes it the acme of pear perfection. Delicious for eating fresh, for sweet pickles. Ripens late summer. Succeeds in all Pear sections. Every home and local market should have Seckel.

STARK GIANT DAMSON

HURRY! ALARMING APPLE ORCHARD SHORTAGE

U. S. Department of Agriculture Census Figures Reveal—"146,000,000 Fewer Apple Trees on U. S. Farms and Orchards NOW Than in 1910 Although Population of the United States Has Increased by 59,000,000! —and of the Trees Now on U. S. Farms and Orchards Many Are Trees That Will Rapidly Pass Out of Profitable Production"!

WORLD WIDE FRUIT SHORTAGE

The sensational facts and figures revealed above are quoted from an editorial by F. R. Kilner, writing in a recent issue of the *American Nurseryman Magazine*. Mr. Kilner continues: "In addition to the sharp reduction in the apple tree population in this country, there has been a general destruction and neglect of apple trees in European lands, and it will require years to bring new orchards to profitable production. In the meantime it looks as though the United States will have to supply a large part of the apples to be consumed in Europe."

"A long range view of the history of apple planting in the United States shows that there has been a period of heavy apple tree planting once each generation—this covered a cycle of about thirty-five years. Statistics show that there was a relatively heavy planting period in the 1840s and again around 1870. Next came the planting boom after the turn of the century, which culminated in 1910-12. Thus, there are two factors that might point to a coming apple tree planting period—the return of peace and the turn of the cycle."

BIG PROFITS FROM FRUIT GROWING

Many a family today with only a few acres of ground around the home, in the country or the suburbs—many a farmer—many a man or woman on farm, in small town or suburb—sees unfold before their very eyes a thing hitherto undreamed of—the opportunity to grow their own fruit supply—and make good money, too! Yes, substantial money from even a comparatively small planting of fruit trees.

With the increased demand for fruit outstripping even the tremendous demand for other foods, fruit growing promises to show unusual profits.

Imagine 15-pound boxes of cherries selling for \$6—apples \$4 or more per bushel—peaches even as high as \$5 a bushel! Only a little simple arithmetic is needed to multiply the generous yields of Stark Bro's extra-heavy bearing fruit trees by the prices you are paying for fruit—to plan a profit program for the land you have available. Just the land, good trees and reasonable care are all you need. For Stark Bro's send full and complete planting instructions with each order, give you free bulletins and literature telling you how to care for and prune your trees so the fruit can multiply in size and quantity—and bear crops years sooner!

GOOD HEALTH THROUGH FRUIT

The U. S. Gov't recommends at least two servings of ripe fruit to each member of the family every day of the year as vital for good health and strength.

To be sure that *your family* has enough of this delicious and healthful food, grow your own fruit supply. It is easy to have a succession of delicious fresh tree-ripened fruits the entire season, with enough for winter use, for canning, quick freezing and drying—also jellies, jams, preserves, etc., when you plant Stark Bro's famous World's Champion Fruit Trees.

Stark Bro's, with their background of 131 years' fruit-growing experience, stand at your right hand ready to help you grow your own fruit—get your share of the better profits to be made by growing our improved Special Record-Bearing strain varieties of fruits. From all sections come reports of growers making splendid profits from their Stark Fruit Trees—even from small acreages.

Thousands Ordered Too Late in Last Year's Fruit Tree Sell-Out!

In a time of unprecedented demand for fruit, and the greatest fruit tree shortage ever known, America has demanded and ordered more fruit trees than ever before in history. But so great was the demand last season, that thousands upon thousands were unable to obtain the fruit trees they wanted. Even with Stark Bro's immense resources, even with Stark Bro's 11 Great Nurseries. Yes, even this Largest Nursery in the World was unable to supply the demand.

Now many thousands of new Stark trees, of virtually every wanted variety, are available. Trees that we started 2 and 3 years ago will have obtained the growth and strength so that we can dig them and send them out—to those who order early. We know that, as in other years, many people will put off ordering until the fruit trees they want are sold out—but we know, too, that there are many, many people who, with

foresight, will order now to avoid disappointment—and get their fruit a year sooner.

There is only one way to be sure—absolutely sure—of getting fruit trees of special strains that produce the miracle fruits of Stark and Burbank. That way is to order now—while the wanted varieties are still available. Otherwise, because of the great scarcity, we cannot guarantee delivery.

Right now, we can promise that your early orders for fruit trees can be taken care of. But if you want fruit trees to plant, please order promptly; otherwise, you may be disappointed. This is particularly true regarding orders for the most desirable varieties—the Stark Golden Delicious Apple; the Starking Double-Red Delicious Apple; the Jonared; Young Bearing Jonathan; and Scarlet Staymared Apples—World's Earliest; Burbank's July Elberta; Stark Early Elberta; Golden Elberta Cling; and Hal-Berta Giant Peaches—the Stark Gold and Montmorency Stark Cherries—Burbank's Elephant Heart and Gold Plums—and many Apricots, Pears, Grapes, Berries and Ornamental Trees, Shrubs and Roses.

Many authorities predict that in the years to come only those who grow their own fruit will be able to afford to supply their table plentifully with the sugar-laden, health-giving, vitamin-filled fruits to which they have been accustomed. Your own Government urges you to serve fruit twice each day to every member of the family.

Stark Bro's bring this advance **WARNING** so that you will not be too late in ordering.

To avoid disappointment, decide upon your fruit tree requirements at once. **Order at Once** and mail your order promptly, so that your trees can be reserved and shipped to you this season at the proper time for planting in your locality.

"Gold-Mine" Double-Profit Orchards

"Double-Profit Planting Plan" and "Gold-Mine Orchards" Copyrighted by Stark Bro's Nurseries.

At These Special New Low Demonstration Prices You Save 35%

We stand 35% of the cost to help you plant "Gold-Mine" Orchards this year for quick, steady, double profits. Plant America's two best apples **NOW**—Genuine Stark Golden Delicious and Starking (Double-Red Delicious)—by this New Double-Profit Plan shown below.

There is now a Quick Double-Profit Orchard Planting Plan that has been worked out for your benefit as the result of the astounding experience of hundreds of Stark Golden Delicious Apple Growers.

"We plant Apple Trees that way—20 feet apart. The first two crops pay for the whole orchard and then we pick big money crops for many years before trees are crowded. Then we cut out every other row on the diagonal, leaving the trees 28½ ft. apart," declared the famous orchardist, Geo. W. Miller, when he visited us here at the office recently. Mr. Miller continued: "We value a bearing orchard at \$1,000.00

an acre if planted, 20x20; \$750.00 30x30 and \$500.00 40x40, and orchards pay profits on investment at these figures."

To demonstrate to you the quick steady double profits from these "Gold-Mine" Orchards of Stark Golden Delicious and Starking Apple Trees planted 20x20 feet apart, we are making you—while they last—the Special Low Price on Demonstration Orchards below. 100 Trees—enough to plant a whole acre—for ONLY \$125.00 (you save \$75.00). 50 Trees—enough for ½ acre for ONLY \$65.00 (You save \$35.00).

"Gold Mine" Acre Orchard

Every Genuine Stark Golden Delicious Apple Tree is a Direct-in-line Descendant of this \$5,000.00 Original Stark Golden Delicious Tree—Genuine Trees Sold ONLY by Stark Nurseries.

Original Starking Double-Red Delicious Limb

Stark Bro's Discovered & Bought Amazing New Parent Trees

Now they nursed these miracle new Record-Bearing parent trees, propagated and multiplied them, nurtured them until their wonders became perpetuated in new and marvelous fruit tree improvements that will thrive and bear almost anywhere farm crops grow.

In recent years Man and Mother Nature have shattered many old-time ideas of Fruit-growing. Ordinary trees still grow in many parts of the country. But amazing new varieties have been improved beyond our dreams.

We now get larger fruit—more delicious fruit—more bushels per tree—or trees that bear 1, 2, or 3 years sooner.

One heavier bearing tree will pay its entire cost with just one of the extra bushels it produces.

One tree that produces larger fruit will pay its entire cost by the added value that larger fruit brings—just one bushel of superior big fruit will often bring double the cost of the tree that bore it.

One tree that comes into bearing 2 or 3 years quicker will pay its entire cost by the value of just one of its extra crops.

Isn't it false economy then to accept ordinary trees just to save a few pennies at the start? Better to plant a few less

and plant outstanding trees! You may get as much fruit from these fewer trees as from many others. And you can be sure that the fruit you do get will be the finest of its kind.

We Paid \$6,000 for One Parent Tree To Get Just One of These Miracle Varieties.

We paid \$5,000.00 to buy the original Stark Golden Delicious Apple Tree. We paid \$6,000.00 for just one limb of the amazing new Starking Double-Red Delicious Apple. We paid \$3,000.00 for the Burbank's Gold Plum, etc.

The only way we could buy the wonderful new Scarlet Staymared Apple was to pay for the original limb at the rate of \$1,000.00 a foot!

Thus we acquired these and other remarkable new improved varieties. Many have been awarded U. S. patents and Trade-Marks. Is it likely that such improved varieties as these can be "picked up" anywhere from "curbstone growers" who represent them as "similar to"? No! They cannot! It might take years to find out how different they are. And then precious time would have passed.

Many Bear Larger Fruit! Bear 1 to 3 Years Sooner! Or Bear Up to 40 Bushels!

Salt Lake City, Utah

Stark Bro's Nurseries

Dear Sirs:

Kindly send us collect the enclosed order of trees and grape vines.

When the Stark Salesman first contacted us and showed us the catalog, Mrs. Miller and I agreed that it all looked wonderful on paper, but we had an idea in the back of our heads that it was mainly for advertisement and somewhat exaggerated as most advertisements. However, because of the recommendation that our friends and neighbors gave us we ordered Stark Trees. The trees arrived and were planted in the Spring of '41, and almost without exception have done very well.

Last Summer, 1943, to our happy surprise we didn't have to buy a bushel of peaches (which brought \$5.00 to \$6.00 a bushel) — we picked plenty from our young 2-year-old trees for us to eat, and can.

What was more surprising was the fact that we also tasted the Elephant Heart Plums (from our one tree) — one of the Golden Delicious apple trees had three apples on it, one of which hung low on the branches and was picked early by the baby. The other two matured and gave us a real treat. Thus we are convinced that what you say about having quick bearing trees is true. We are very happy about our small home orchard.

Respectfully,
Mavis L. Miller

FULL-BEARING, 1, 2, EVEN 3 YEARS QUICKER

From all sides we get letters telling of fruit on 2- or 3-year-old Stark Trees. Yes, from planters who expected to wait 5, 6, or 7 years, based on their experience with ordinary trees.

So naturally, if Stark's method of propagating direct-in-line from the superior Record-Bearing parent tree will help make your trees bear a year or two sooner—that's what you want.

Stark Grafting Method Like Giving a Child the Strength of a Man

These trees are given a "head-start" by Stark's Extra Heavy Root System Grafting Method—using the complete root system of the seedling instead of just one piece of root, as is often done.

All the extra care that Stark gives—in grafting—in growing—in digging, in protecting the tree from drying out, in subjecting it to 5 rigid inspections—helps in giving you sturdier trees that will shorten the time until you pick the fruit.

Don't deny yourself these amazing, improved trees that bear the finest fruits grown in America. If you have to plant a few less trees in order to get these better Stark Record-Bearing Strain Trees, do it. Have the finest, and in a few years your trees will pay you back what they cost and pay for many, many more trees, too!

"Stark Record-Bearing Strain Trees would be cheap at \$5 compared to other trees as a gift!"

Stark Bro's Nurseries, Louisiana, Mo.

Last spring I bought 800 trees (NOT Stark Trees) because of a so-called bargain price. I had to throw away 400 cheap trees as worthless. I received the Stark Record-Bearing Strain Trees at the same time. You should see the difference. A Stark Record-Bearing Strain tree only 3 months old is much bigger than a "cheap" tree 15 months old. That's why a Stark Tree would be cheap at \$5, compared to those others as a gift.

HOUSER SUTTON.

SALESMEN WANTED

SPARE-TIME SALESMEN & WOMEN WANTED

—Big money weekly. O. E. Griffin made exceptional earnings, \$240.01 in month spare time. Biggest chance in years as Govt. urges Home Fruit Tree Planting. CASH paid weekly.
